*STAFF REPORT*

---

*DEPARTMENT OF COMMUNITY DEVELOPMENT*

**TO:** Community Services and Development Committee  
**FROM:** Chris Pasinetti, Community Development Director  
**DATE:** For the November 21, 2016  
**SUBJECT:** Community Development Department Planning Reports

---

**SUMMARY OF REQUEST:**

Determine what is needed/necessary for the monthly Planning Department report.

**BACKGROUND:**

In an effort to make the Community Development Department more efficient the city (last year) purchased a new permitting program through Bitco Software. The new program gives the city the ability to better track and monitor permits. The new software program also gives staff the ability to extract data from the system to create reports that we were unable to create in the past. In the past staff has always provided a very detailed report to the City Council regarding building permits, land use permits, pre-application meetings, code enforcement, etc. With the new program staff would like to explore what aspects of the planning department report that is most important.

**RECOMMENDATION:**

Review the materials provide and give staff feedback on specific aspects of the Planning Department report that is most helpful.
