

City Council
AGENDA BILL

MEETING DATE: 11/27/2017

SUBJECT: Ordinance No. 2625 Amending the Comprehensive Plan

CATEGORY: ORDINANCE

2625

BUDGET IMPACT: Reduction in Plan review fees

Expenditure Budget: \$

Revenue Budget: \$

Proposed Budget Amendment: \$

RELATED ORDINANCE OR RESOLUTION NO. 2625

ATTACHMENTS: Staff report, DRAFT Ordinances with Exhibits

STAFF CONTACT: Chris Pasinetti, Community Development Director

SUMMARY/BACKGROUND:

The DRAFT Ordinance No. 2625 would adopt the yearly Comprehensive Plan Amendments as outlined by the Planning Commission Work Plan that was approved by the City Council on February 27, 2017. The work plan included specific Comprehensive Plan amendments as follows:

1. Impact Fee Deferrals for light industrial and medical uses
2. Adopting the Revised School District Capital Facilities Plan

On October 26, 2017 the Planning Commission held a public hearing, after the public hearing the Planning Commission adopted the findings made within the staff report and made a recommendation to the City Council to adopt the 2017 Comprehensive Plan/Planning Commission work plan.

On November 13, 2017, the Economic Development Committee reviewed the proposed amendments and recommended approval.

On November 20, 2017, the Community Services and Development Committee review the proposed amendments and recommended approval.

RECOMMENDATIONS:

DATE SENT TO COMMITTEE: 11/20/2017

DATE RETURNED: 11/20/2017

COUNCIL COMMITTEE: 3-0

STAFF: Recommends opening the public hearing and give first reading of Ordinance No. 2625.

(BELOW TO BE COMPLETED BY CITY CLERKS OFFICE)

COUNCIL ACTION:

- APPROVED
- DENIED
- TABLED/DEFERRED/NO ACTION
- MOVED TO SECOND READING (ordinances only)

1ST reading 11/27/17

Enactment reading _____

ORDINANCE # 2625

RESOLUTION # _____

STAFF REPORT

DEPARTMENT OF COMMUNITY DEVELOPMENT

TO: Mayor and City Council

FROM: Chris Pasinetti, AICP, Community Development Director

DATE: For the November 27, 2017 Meeting

**SUBJECT: 2017 Comprehensive Plan and Municipal Code Amendments.
Recommendation from the Planning Commission, Economic Development
Committee and Community Services and Development Committee.**

3. COUNCIL AGENDA BUSINESS

A. 2017 Planning Commission Work Plan and Comprehensive Plan Amendments.

In January 2017, the Docket for the yearly Comprehensive Plan Amendments and the Planning Commission work plan was approved by the Planning Commission. That work plan was later approved by the City Council at their February 27, 2017 meeting. The work plan includes the following items:

1. Impact Fee Deferrals for light industrial and medical uses*
2. Frontage Improvements Code amendment
3. Zoning Code Amendment for Farmers' Markets
4. Single Family Residential Design Standards
5. Enumclaw School District Revised CFP
6. Sign code revisions**

*This also included a fee resolution as well as adopting impact fees for Fire and Schools, this was recommended by the Planning Commission in January and the code was amended with Ordinance 2609.

**This item will be carried over to next year's work plan and is following a separate public process due to the necessary work for this task.

One additional item is being added by staff to the work plan and this is a yearly maintenance update; the adoption of the School District's Capital Facilities Plan for 2017 (this plan is updated as an appendix to the comprehensive plan as the school's CFP was adopted in 2016). These amendments are done yearly to keep the plans updated.

On October 26, 2017 the Planning Commission held a public hearing, and after the public hearing the Planning Commission adopted the findings made within the staff report and made a recommendation to the City Council.

On November 13, 2017 the Economic Development Committee reviewed the proposed amendments to the Comprehensive Plan and the municipal code amendments. At that meeting, the Economic Development Committee recommended to approve the proposed amendments to the Comprehensive Plan and recommended a revision to the municipal code regulations for Single Family Residential

Development. Specifically, they recommended to increase the maximum allowed garage façade from 50% to 60%.

As an example: Our minimum lot width is 50 lineal feet. The side yard setbacks are 9 lineal feet. Therefore, the width of a house would be 32 lineal feet. The garage as proposed would be allowed to 22 lineal feet of the front as proposed by the Economic Development Committee. Staff supports this recommendation as a 16 foot wide garage (as recommended by the Planning Commission) is not wide enough for two cars. However, a 22 foot wide garage would be.

On November 20, 2017 the Community Services and Development Committee (CSD) review the proposed amendments to the Comprehensive Plan and the municipal code amendments. At that meeting the CSD recommended to approve the amendments as amended by the Economic Development Committee.

The amendments are included as two separate Ordinances. Ordinance No. 2625 would amend the City's Comprehensive Plan to include a revised policy regarding impacts fees and adopt a revised School District Capital Facility Plan. Ordinance No. 2626 amends the Enumclaw Municipal Code

The 2017 Comprehensive Plan/Planning Commission work plan as noted below:

1. Impact Fee Deferrals for light industrial and medical uses (provided in Ordinance No. 2625): In February, the commission reviewed the Impact Fee Deferral Program. The program would defer impact fees to Certificate of Occupancy or until the property is sold (see Policy 1.4, Economic Development Element). At that time, the commission determined that deferring impact would not benefit or encourage the Economic Development Goal of bringing new business into the City or increase employment. The recommendation would be to remove policy and replace with a new policy.

“1.4 Consider “Impact Fee Discount Program” for Light Industrial, Medical developments and other uses as appropriate.”

2. Frontage Improvements Code amendment (provided in Ordinance No. 2626): In February, the commission reviewed an amendment to the municipal code addressing the requirements to make frontage improvements for development/and or redevelopment. The existing code establishes a bright line cost of \$50,000 expenditure as being the trigger for frontage improvements. The Planning Commission and staff finds that this is unreasonable given that the cost or type of improvements may not reflect the impact of the project. Planning Commission and staff suggests EMC 12.18.010 be amended as follows:

No building or structure shall be erected, relocated, expanded or altered ~~in an amount exceeding \$50,000~~ and no building permit shall be issued therefor on any lot unless one-half of the street abutting thereon has been dedicated and improved with curb, gutter, sidewalk, drainage structure and street paveout for the full width of the lot in accordance with city standards, or such dedication and improvements have been assured to the satisfaction of the city engineer, subject to the following limitations:

B. The City Engineer and the Community Development Director may permit modification of streetscape improvement standards where the required streetscape is not, in the opinion of the City Engineer and the Community Development Director, roughly proportionate to the impact, type, scale, and cost of the proposed development action.

C. The streetscape design alternatives shall be documented as an administrative determination.

~~A~~ D. The maximum area of land required to be so dedicated shall not exceed 25 percent of the area of any such lot nor shall such dedication reduce the lot between the required minimum lot sizes, widths and areas required, unless a variance for the same has been granted, and in no case shall such dedication be required if the remaining lot area has a width less than 50 feet or an area less than 5,000 square feet.

~~B-E.~~ No such dedication may be required with respect to the portion of a lot occupied by a main building.

~~C-F.~~ EMC 12.18.056(D) and (E) shall apply to the construction of a single-family dwelling or customary accessory building in the R-1, R-2 and R-3 zones.

~~D-G.~~ The requirements of this section shall not apply to alterations that do not change the use of a building to a use with a higher average trip generation rate as defined in the most recent edition of the Trip Generation Manual published by the Institute of Transportation Engineers.

3. Zoning Code Amendment to allow farmers’ market in the Public Use (P) Zoning District (provided in Ordinance No. 2626): In April, the commission reviewed the amendment to allow “Farmer’s Markets” as an allowed use within the Public Use Zoning District. The commission finds that the use is not inconsistent with the other uses within the zone and recommends to amend the zoning code as follows (underline indicates change):

KEY	COMMERCIAL/INDUSTRIAL ZONES								
P – Permitted Use	General Office	General Office-Hospital	Neighborhood Business	Highway Community Business	Central Business 1	Central Business 2	Light Industrial	Public Use	Hospital
C – Conditional Use									
S – Special Use									
SPECIFIC LAND USE	GO	GO-H	NB	HCB	CB-1	CB-2	LI	P	H
Farm stand, retail sales of produce and crops			<u>P</u>	<u>P</u>				<u>P</u>	

4. Single Family Residential Design Standards (provided in Ordinance No. 2626): In June, July, August (sub-committee meeting) and September the commission reviewed proposals for Single Family Residential Design Standards. As part of implementing Goal LU-7 of the Land Use Element of the comprehensive plan, the commission developed a set of design standards to implement the goal. The standards are simple and easy to implement through the building permit process. The commission finds that the proposed standards implement the goals of the comprehensive plan. The proposed design standards are attached to this staff report in Exhibit "A".

5. Enumclaw School District Revised CFP (provided in Ordinance No. 2625): The Enumclaw School District CFP was reviewed as part of the 2015/2016 Comprehensive Plan Cycle. This would adopt the new plan would be adopted as part of the Comprehensive Plan by reference. The plan includes revised projects and gives the city the authority to collect impact fees on behalf of the school district to help growth pay for growth as it is related to schools.

FINDINGS AND CONCLUSIONS:

Title 15 outlines the findings required to approve comprehensive plan amendments/code amendments. EMC section 15.32.038 outlines three general requirements and six consistency statements to be used when evaluating the merits of the proposals.

The code states (in part) under EMC 15.32.038 that the planning commission may recommend, and the city council may approve, the proposed amendment[s] to the comprehensive plan only if the following general criteria are met:

1. The amendment will not result in development that will adversely affect the public health, safety and general welfare.

Staff response: The proposed policy amendment and the proposed code amendments will not adversely affect the public health, safety and general welfare.

A. Staff and the Planning Commission find that an impact fee discount policy change is consistent with the Comprehensive Plan policy to encourage economic development. Impact fee deferrals have not been widely utilized, and will not have as great an impact enticing companies to locate within the City as an impact fee discount.

B. Staff and the Planning Commission find that the proposed amendment to EMC section 12.18.010 will allow staff the flexibility to make decisions regarding the requirements for frontage improvements. This will allow department heads to evaluate the impacts of the proposal against the requirement for frontage improvements. This will improve the permitting process overall.

C. Staff and the Planning Commission find that allowing Farmer's Markets within the Public Use (P) Zoning District as a permitted use will make it easier for a market to locate in the downtown core. This will increase foot traffic and help create synergy within the downtown. A farmer's market is not inconsistent with the uses that are currently permitted within the Public Use Zoning District.

D. Staff and the Planning Commission find that the proposed single family design standards will help preserve the characteristics of existing neighborhoods and improve the quality and appearance of new homes.

E. Staff and the Planning Commission find that the adoption of the School District's revised Capital Facilities Plan will not adversely affect the public, health, safety and general welfare.

2. The amendment is based upon new information that was not available at the time of adoption of the comprehensive plan, or that circumstances have changed since the adoption of the plan that warrant an amendment to the plan.

Staff response: Staff and the Planning Commission find that the amendments to the comprehensive plan and development regulations are warranted because in 2016 the City adopted a new Comprehensive Plan that included new policies and the need to implement new regulations for those policies.

3. The amendment[s] is consistent with other goals and policies of the comprehensive plan, and that the amendment will maintain concurrency between the land use, transportation, and capital facilities element of the plan.

Staff response: Staff and the Planning Commission find that the amendments to the comprehensive plan and development regulations are consistent with the goals and policies of the comprehensive plan as follows:

Economic Development Element Goal 1 states: "Promote Employment Growth in Retail/Services, Medical and Light Industrial Sectors." Staff and the Planning Commission find that a reduction in impact fees or other measures, rather than a deferral of impact fees would facilitate that goal and other goals of the Comprehensive Plan and would not cause any concurrency conflicts within the various elements of the Comprehensive Plan.

Transportation Element Policy 1.9 states: "Require adequate right of way dedication and associated improvements as part of new development." Staff and the Planning Commission finds that the amendments to the municipal code will not detrimentally affect the policy stated or other elements of the comprehensive plan as improvements would be measured against their impacts as opposed to project cost.

Economic Development Element states: "Develop a permanent Farmer's Market to include vendors, producers, entertainers and related activities." Staff and the Planning Commission find that allowing a farmer's market as a permitted use would implement the Comprehensive Plan and would not be inconsistent with other uses within the Public Use Zoning district thereby not cause any concurrency conflicts.

Land Use Element policy 7.1 states: "Create and adopt design standards for new single family development that will ensure that new development fits into the character of existing neighborhoods in terms for scale, density and design." Staff and the Planning Commission find that the proposed design regulations will implement the Comprehensive Plan goals and policies to maintain high quality design. The standards will not conflict with other elements of the comprehensive plan.

Capital Facilities Element Goal CF-5 states: "Encourage adequate school facilities and quality education through the coordination of planning efforts." Staff and the Planning Commission find that the revised Enumclaw School District CFP will implement Goal 5 of the Capital Facilities Element as related to schools.

The code states (in part) under EMC 15.32.038 that the planning commission shall use the following detailed criteria in evaluating the merit of a proposal:

1. The amendment[s] should address an existing, significant need for a public necessity or convenience.

Staff response: Staff and the Planning Commission find that the proposed amendment to the comprehensive plan and development regulations are addressing existing public needs as well as implementing goals of the comprehensive plan. Increasing employment, assessing frontage improvements against impacts, allowing farmer's markets on public zoned property and adopting regulations for Single Family residential designs and updated the School District's Capital Facilities Plan are all implementing goals and policies of the comprehensive plan and addressing gaps within the municipal code.

2. The amendment[s] should be in the public's best interest.

Staff response: Staff and the Planning Commission find that the proposed amendments are in the public's best interest. Implementing the Comprehensive Plan by adopting revised policies as well as code amendments to implement policies regarding frontage improvements, permitting farmer's markets in more zones within the City and adopting code requirements for single family residential home designs, are all intended to be in the public interest.

3. The amendment should be compatible with all adjacent comprehensive plan and zoning map designations.

Staff response: The proposed amendments are not site specific or include and zoning or land use map amendments.

4. The amendment should be compatible with all elements of the comprehensive plan and zoning code.

Staff response: Staff and the Planning Commission find that the proposed amendments are compatible with all elements of the comprehensive plan and the zoning code. The proposed amendments implement the goals and policies of the comprehensive plan as adopted in 2016 and make policy improvements to that plan.

5. The amendment[s] should be compatible with and should not adversely impact related ordinances, regulations and development standards.

Staff response: Staff and the Planning Commission find that the proposed amendments are compatible with existing ordinances, regulations and development standards. The amendments are not inconsistent with existing goals and policies in the comprehensive plan and development regulations.

6. The amendment should not adversely impact the health, safety and general welfare of the public; the city design; development interests; neighborhoods; environmentally sensitive areas; and historic areas.

Staff response: Staff and the Planning Commission find that the proposed amendments will not adversely impact health, safety, and the general welfare of the public; the amendments will improve City design and further development interests and neighborhoods. The amendments will not adversely affect sensitive areas or historic areas.

RECOMMENDATION:

Staff recommends that the City Council open the public hearings for Ordinance No.'s 2625 and 2626, take testimony and close the public hearings. After the perspective public hearings, give first reading of the Ordinances.

ORDINANCE NO. 2625

AN ORDINANCE OF THE CITY OF ENUMCLAW, KING COUNTY, WASHINGTON UPDATING AND AMENDING THE ENUMCLAW COMPREHENSIVE PLAN, PROVIDING FOR SEVERABILITY AND ESTABLISHING AN EFFECTIVE DATE.

Whereas, the City of Enumclaw has adopted a comprehensive plan for the purpose of guiding and informing future growth, development, and infrastructure planning pursuant to the Growth Management Act (GMA), RCW Chapter 36.70A which covers the incorporated city limits as well as adjacent unincorporated lands within the Urban Growth Area; and

Whereas, the Planning Commission and the City Council has received staff reports, took testimony from public hearing; and

Whereas, to promote the health, safety and welfare of the citizens, a revised comprehensive plan is necessary and would promote the desires of the citizenry; and

Whereas, the City's last major update of its comprehensive plan occurred in 2016; and

Whereas, the GMA requires that the comprehensive plan and development regulations be subject to continuing review and evaluation by the city; and

Whereas, the revisions to all Chapters of the Comprehensive Plan is needed for the purposes of updating and revising various goals, policies, provisions, and references therein; and

Whereas, an environmental review of the proposed Comprehensive Plan amendments has been conducted in accordance with the requirements of the State

Environmental Policy Act (SEPA), and a SEPA threshold determination of nonsignificance (DNS) was issued on October 19, 2017 and sent to state agencies and interested parties; and

Whereas, after holding public hearings and considering public testimony on October 26, 2017, the Planning Commission issued a recommendation to the City Council to adopt the proposed Comprehensive Plan; and

Whereas, the City Council held its own public hearing on November 27, 2017 and has considered all recommendations and reports submitted to it and all comments made at the public hearing; and

Whereas, the City Council has carefully considered, and the amendments set forth in this ordinance satisfy all applicable state laws and the City's review criteria as set forth in EMC 15.32.038, and

Whereas, the City Council incorporates by reference the Findings and Conclusions set forth in the Community Development Director's report for the November 13, 2017 meeting, Exhibit "B".

Now, therefore, the City Council of the City of Enumclaw, King County, Washington do ordain as follows:

Section 1: Findings. The City Council hereby adopts the above recitals as findings in support of the Comprehensive Plan amendments set forth in this ordinance, together with the following:

A. The City is authorized by state law, including but not limited to Chapter 36.70A RCW and Chapter 35A.63 RCW, to adopt and periodically amend a local comprehensive plan.

B. The amendments set forth in this ordinance have been processed and considered by the City in material compliance with all applicable procedural requirements, including but not limited to requirements related to public notice and comment.

C. The amendments set forth in this ordinance will advance the public health, safety, and welfare.

D. The amendments set forth in this ordinance have been considered by the City Council concurrently to enable the cumulative effect of these enactments to be ascertained.

E. The amendments set forth have no adverse environmental affect.

Section 2: Amendment of the Comprehensive Plan Chapter 10. The document entitled “City of Enumclaw, Comprehensive Plan, 2015,” is hereby amended to change policy 1.4 to “Consider Impact Fee Discount Program for Light Industrial, Medical developments and other uses as appropriate.”

Section 3: Amendment of the Comprehensive Plan Capital Facilities. The document entitled “City of Enumclaw, Comprehensive Plan, 2015” is hereby amended to adopted the Enumclaw School District Capital Facilities Plan 2017-2022 attached hereto by reference as if set out in full as “Exhibit A” by reference.

Section 4: Copy to Commerce. Pursuant to RCW 26.70A.106, the Planning Director is hereby authorized and directed to provide a copy of this ordinance to the Washington Department of Commerce within ten (10) days of adoption.

Section 5: Severability. If any section, sentence, clause or phrase of this ordinance should be held invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect the validity or constitutionality of any other section, sentence, clause or phrase of this ordinance.

Section 6: Effective Date. This ordinance shall take effect and be in force five (5) days from and after its passage, approval and publication as required by law.

CAPITAL FACILITIES PLAN

Approved by Board of Directors
Resolution No. 1064

The Enumclaw School District No. 216 hereby provides to the King County Council, City of Enumclaw and City of Black Diamond, this Capital Facilities Plan documenting present and future school facility requirements of the District. The plan contains all elements required by the Growth Management Act and King Code 21A, including a six (6) year financing plan component.

Executive Summary

In accordance with King County Code 21A.43, this update has been prepared by the Enumclaw School District No. 216 to reflect current conditions in facility usage and needs.

The District's service area includes areas of unincorporated King County, the City of Black Diamond, and the City of Enumclaw. Currently, the District serves a student population of about 3,934 (Oct. 2016) students in kindergarten through grade 12. Enrollment projections presented herein, indicate that the enrollment growth will occur over the next six years.

Following a period of little to no growth, the District anticipates healthy enrollment gains as a result of growth projected within the six-year planning period (and anticipated to continue beyond the six year planning period). The City of Black Diamond is planning for development of two approved Master Planned Developments (the "MPDs"), the Ten Trails and Lawson Hills, over the next fifteen plus years. Together, the MPDs include 6,050 dwelling units. It is anticipated that construction of residential dwelling units in Phase IA of the Ten Trails MPD will begin in 2017 with the construction of 250 single family housing units. It is further anticipated that during the six year period of this Capital Facilities Plan, over 1,505 housing units will be constructed in the two MPDs. Using current student generation rates, this could mean an increase in the District's enrollment by approximately 776 students from these units in a six year period. The City of Enumclaw is in receipt of a preliminary plat proposal to subdivide land within the city limits. This project, known as Suntop Planned Unit Development "Division 1," includes 116 single family residential lots. The Division 1 Project began construction in 2016 and approximately 80 lots remain to be constructed. Using current student generation rates, this could result in an additional increase of approximately 71 students within this six year period. Additionally, there are six other developments at various stages of approval within the city limits of Enumclaw. A total of 215 single family dwelling units will be built as result, likely within the six year period of this plan. Finally, there is ongoing, though limited, development in the unincorporated area of King County that is located within the District. With this cumulative potential new development, the District will need to add student capacity at the elementary level and high school level during the six-year planning period and begin to plan for additional capacity in the next ten years. Section IV of this Plan identifies the District's anticipated long-term planning with regard to the development within the City of Black Diamond.

This Plan includes the capacity projects planned by the District during this planning period. The District has identified a need during this six-year planning period for additional elementary capacity at Black Diamond Elementary and at Enumclaw High School (as a part of the modernization project). As noted above, the District will also need substantial capacity additions in the long-term planning period in response to development activity throughout the District and particularly within the City of Black Diamond. Future updates to this Plan will reflect planning needs in response to growth.

Section I: Six-Year Enrollment Projection

This plan update is based on the anticipated number of students expected to be enrolled through 2022. The six-year projection (2017-2022) will assist in determining short term needs and form the basis for assessing the need for impact fees.

Enrollment projections are most accurate for the initial years of the forecast period. Moving further into the future, more assumptions about economic conditions and demographic trends in the area affect the projection. In the event that enrollment growth slows, plans for new facilities can be delayed. It is much more difficult, however, to initiate new projects or speed projects up in the event enrollment growth exceeds the projections. Regular updates of both the enrollment projections and the Capital Facilities Plan (CFP) are essential to good facility planning.

The District relies on two population forecasts for purposes of projecting student enrollment. The first is an estimate by the Superintendent of Public Instruction (OSPI). OSPI estimates future enrollment through 2022 using the cohort survival method. This method estimates how many students in one year will attend the next grade in the following year. Due to the fact that the cohort survival method does not incorporate in-migration, particularly from anticipated new development within the District, these projections are considered highly conservative. See [Appendix A](#).

The second forecast is a modified cohort analysis, which uses the cohort projections as a base, incorporates King County live birth data and the District's historic percentage of those births to determine the number of kindergartners entering the system, and further incorporates assumptions based on known new residential development proposals within the District. See [Appendix B](#). Because this analysis incorporates the expected in-migration to the District from new development, the District uses this analysis for purposes of determining capacity needs throughout the six years of this planning period. Using the modified enrollment projections, the District's enrollment is expected to increase over the six years of this Plan.

With regard to the expected enrollment from the anticipated 6,000 dwelling units in Black Diamond, the District anticipates, using best known information to date, that building of residential units will commence in 2017, with the first units anticipated to be occupied in late 2017/early 2018 (with building and occupancy to continue for a period of fifteen years or more thereafter). As such, the enrollment impacts from the start of these developments begin to show during the early years of this Plan period. Future updates to this Plan will provide additional and updated information regarding these projects and the impacts on District enrollment.¹

¹ Similarly, the District intends to closely monitor development in the City of Enumclaw in order to further assess the potential and real impacts to student enrollment. Future updates to this Plan will reflect new enrollment information.

Using the modified cohort survival projections, a total enrollment of (HC) is expected in 2022 with most of the growth occur in the latter half of the planning period when the first portion of homes in the MPDs in Black Diamond are expected to be occupied. In other words, the District expects the enrollment of 1,266 additional students between 2016-2022. See Table 1.

**Table 1: Projected Student Enrollment
2016-2022**

Projection	2016*	2017	2018	2019	2020	2021	2022	Actual Change	Percent Change
Modified Cohort (HC)	3,934	4030	4,240	4,480	4,720	4,960	5,200	1,266	24.34%

* Actual enrollment (October 1, 2016)

Section II: Current Enumclaw School District “Standard of Service”

In order to determine the capacity of the District’s facilities, the King County Code 21A refers to a “standard of service” that each school district must establish in order to ascertain its overall capacity. The standard of service is based upon the number of classrooms available at each school and the desired average class load district-wide. A favorable class size is used to promote the standard and quality of educational programs the residents of the Enumclaw School District expect and support through the passage of levies and bonds.

Rooms designed for special use are not counted as classrooms. Portables used for classrooms are employed on an interim basis only. When additional permanent classrooms are available portables are removed from service, transferred to other locations, or used for non-classroom purposes.

The District’s standard of service is based on current standards. Future updates to the Capital Facilities Plan will incorporate any funded implementation of K-3 class size reduction as well as updates related to passed legislation.

Current Standards of Service for Elementary Students:

Average district wide class size for grades K-3 should not exceed 23 students.

Average district wide class size for grades 4 and 5 should not exceed 26 students.

Elementary school permanent capacity should be between 400 and 500 students.

Class size may vary from building to building based upon different influencing factors at each school.

Students may be provided music instruction, physical education, and lunch in a separate classroom or facility.

Students may have scheduled time in a special computer lab.

Special Education for student with disabilities may be provided in a self-contained classroom with a maximum capacity of 10-12 depending on the program.

Identified students will also be provided other educational opportunities in classrooms and/or special spaces for programs designated as follows:

- English Language Proficiency (ELP)
- Integrated Programs & Resource Rooms (for special remedial assistance)
- Education for Disadvantage Students (Title 1)
- Highly Capable Program
- Other Remediation Programs
- Learning Assisted Program (LAP)
- School Adjustment Programs for severely behavior-disordered students
- Hearing Impaired
- Mild, Moderate and Severe Developmental Disabilities
- Developmental Kindergarten
- Preschool Handicapped
- Early Childhood Education Assistance Programs (ECEAP)

All of the above special programs require specialized classroom space; thus, the full-time student capacity of buildings housing these programs is reduced. Students leave their regular classroom for a period of time to receive instruction in these special programs. When programs change, program capacity fluctuates and the plan is updated annually to reflect the change in program and capacity.

Current Standards of Service for Secondary Students:

The standards of service outlined below reflect only those programs and educational opportunities provided to secondary students which directly affect the capacity of the school buildings.

Average district wide class size for grades 6-8 should not exceed 28 students.

Middle school permanent capacity should be between 500 and 550 students.

Average district wide class size for grades 9-12 should not exceed 28 students.

High school permanent capacity should not exceed 1,344 students during construction and 1497 students after completion of the EHS modernization.

Special Education for students with disabilities may be provided in a classroom with a capacity of 10-15 depending on program.

Identified students will also be provided other educational opportunities in classrooms and/or special spaces for programs designated as follows:

- Instrumental and Vocal Music
- Integrated Programs & Resource Rooms (for special remedial assistance)
- Computer Labs
- Advanced Placement Programs
- Basic Skills Programs
- Variety of Career and Education Programs

Many of these programs require specialized classroom space and can reduce the permanent capacity of the school buildings.

Each school's available capacity will vary with the type of programs and space utilization in the building. When a large number of portables are added to site to add capacity, other support facilities, such as gymnasiums, lunch areas, halls, etc. become inadequate.

Section III: Inventory and Projected Six-Year Enrollment Capacity of Schools

Currently, the District has permanent program capacity to house 3,663 students based on the District's Standard of Service as set forth in Section II. Portable classroom capacity for 593 students brings the total capacity to 4,256.² A summary of the current enrollment and capacity, and the breakdown at each grade span, is as follows:

Table 2: Summary of Capacity (2016-17)

2016-17 Current	Permanent Capacity³	Portable Capacity	Total Capacity	Oct. 2016 Enrollment (HC)	Surplus Capacity w/o Portables	Surplus Capacity w/ Portables
Elementary	1,724	96	1,820	1,760	(36)	60
Middle School	1,092	0	1,092	911	181	181
Senior High	847	497	1,344	1,263	(416)	81
District Total	3,663	593	4,256	3,934	(271)	322

Included in this Plan is an inventory of the District's schools by type, address and current capacity. See Table 3.

In the fall of 2005, the District closed J.J. Smith Elementary due to the age and condition of the building. The District performed certain facility upgrades at J.J. Smith recently and it was used to temporarily house Black Diamond Elementary students during construction of the new elementary school. J.J. Smith will be used to house the District's Birth-to-K program and for special education pre-school and ECEAP programs beginning in fall 2017. Other potential uses may include before and after school programs.

Black Diamond Elementary will open in August 2017. The new Black Diamond Elementary will have a capacity of 450 students in permanent housing (an increase from the previous permanent capacity of 193). The Enumclaw High School modernization will open in August 2020. The updated facility will have a capacity of 1,497 students in permanent housing (an increase from the previous permanent capacity of under 1,300).

Based on the enrollment forecasts, current inventory and program capacity, current standard of service, and portable capacity, the District has identified the need for additional student capacity in the short term. This reflects the planned new development commencing in the City of Black Diamond and new and potential development in the City of Enumclaw and King County during the six year planning period. In addition, any funded implementation of class size reduction measures will further impact available and needed capacity. Future updates to this Capital Facilities Plan will address any such implementation.

² The District's intent is for all students to be served in permanent classroom facilities. As such, portables are intended to be a temporary capacity solution. The District currently has four classrooms in portables at Kibler Elementary and 18 classrooms in portables at Enumclaw High School. There are seven portables at Kibler in total and three at Westwood. Portables are being used for book rooms and administrative purposes.

³ Reflects capacity after demolition of former Black Diamond Elementary and a portion of Enumclaw High School.

TABLE 3: Inventory Summary

An inventory of existing permanent school facilities including the locations and capacities of those facilities is provided below.

Existing Facility	Location	Capacity¹
Black Diamond Elementary	25314 Baker Street Black Diamond, WA 98010	450 [^]
Byron Kibler Elementary	2057 Kibler Avenue Enumclaw, WA 98022	461
Southwood Elementary	3240 McDougall Avenue Enumclaw, WA 98022	445 [*]
Sunrise Elementary	899 Osceola Street Enumclaw, WA 98022	461
Westwood Elementary	21200 SE 416th Enumclaw, WA 98022	437
Enumclaw Middle School	550 Semanski Street S. Enumclaw, WA 98022	560
Thunder Mountain Middle School	42018 264th Avenue E. Enumclaw, WA. 98022	532
Enumclaw High School	226 Semanski Street S. Enumclaw, WA 98022	847 ^{**}

¹=Exclusive of portable classrooms and based upon District standards (see Section II).

[^]Will open at 450 capacity in August 2017.

^{*} Will increase from capacity of 365 to 445 in August 2017 as a result of moving ECEAP and special ed pre-school programs from Southwood to J.J. Smith.

^{**}Existing capacity following demolition of portions of the facility as a part of the EHS Modernization/Addition project.

*2016 reflects actual October enrollment.

**The new Black Diamond Elementary School, with expanded capacity, is scheduled to open.

***The renovated and expanded Enumclaw High School is scheduled to open.

Section IV: The District's Planning and Construction Plan

Trigger of Construction

Planning for new schools and additions to existing schools is triggered by comparing the enrollment forecasts with District capacity. Projected available student capacity was derived by subtracting projected student enrollment from existing school capacity for each of the six years in the forecast period (2017-2022). Capacity needs are expressed in terms of "Surplus/(Deficit) of Permanent Capacity." A "(Deficit)" in permanent capacity means that there will be unhoused students (who will likely be served in portable classrooms, in classrooms where class size exceeds State standards, Board expectations and/or contractually negotiated agreements within the local school district). The unhoused student levels are shown in Table 5. Note: for purposes of assessing capacity, the District has included the capacity improvements that are planned over the six year planning period. As previously discussed in this Plan, the District intends to monitor development and enrollment growth and will continue to assess the need for any capacity additions in future updates to this Plan.

Facility Needs (2017-2022)

The voters in the District approved a Bond in April 2015 that includes replacement and expansion of the current Black Diamond Elementary School and renovation/expansion of Enumclaw High School. Notably, creating new capacity at Black Diamond Elementary will help to ensure that elementary schools in other areas of the District are not overcrowded and that capacity is available in those schools to serve new development. The projects listed in Table 5 are anticipated based upon information available at the present time. Due in part to potential anticipated growth within the City of Enumclaw, the District may also purchase additional portables during the six years of this planning period or will reallocate portables upon completion of the Enumclaw High School project.

Facility Needs (Long Term)

Based upon present information regarding the development activity within the City of Black Diamond, the District is planning for long term needs in the Black Diamond area. The District anticipates that, based upon service standards and enrollment projections, the two approved master planned development projects may necessitate the future need for up to four new elementary schools, one new middle schools, and one new high school. The District is uncertain at this time regarding long term additional capacity needs that may result from additional development in Black Diamond and development within the City of Enumclaw and unincorporated King County. The District will continue to monitor development activity and related capacity needs. In addition, funded implementation of class size reduction measures may also require additional capacity. Future updates to this Plan will reflect the planning needs in response to long term growth impacts.

General Considerations

The decision and ability to actually construct a new school facility involves multiple factors not wholly within the control of the District. The availability of funds is the biggest consideration whether those funds are generated from locally approved bonds, state construction funds, impact fees, or mitigation payments, or a combination of the above.

**Table 5 - Planned Projects
2017-2022**

Portables							\$0.10	\$0.10		\$0.10	
Total							\$21.65	\$83.92	\$68.55	\$14.10	\$1.27

(1) Secured Bond/Levy- Bond and levy funding already approved by voters.

(2) Secured Other - Funds currently available to the District including proceeds from property sales, school mitigation and impact fees, and State Match Funds remaining from prior construction projects.

(3) Unsecured future - School mitigation and impact fees not yet collected, bonds and levies not yet approved, state match dollars not yet allocated.

*Replacement of existing Black Diamond Elementary and related new capacity; Partial renovation of existing Enumclaw High school and related new capacity. Projected construction costs are updated annually.

Section V: Capital Facilities Financing Plan

The Six-Year Finance Plan shown on Table 6 demonstrates how the District intends to fund new construction and improvements to school facilities for the years of 2017-2022. The financing plan and impact fee calculation formula also differentiate between capacity and noncapacity projects.

The District's ability to accomplish its building program is based on the following funding sources:

- Passage of general obligation bonds by District voters, which was done in the April 2015 election
- Collection of school mitigation and impact fees
- State School Construction Assistance Program funds

General Obligation Bonds

Bonds are typically used to fund construction of new schools and other capital improvement projects. A 60% voter approval is required to pass a bond. Bonds are then retired through collection of property taxes. The District's voters recently approved a \$68.5 million bond to fund the replacement and expansion of the existing Black Diamond Elementary School and the partial renovation and expansion of Enumclaw High School.

State School Construction Funding Assistance

State School Construction Funding Assistance comes from the Common School Construction Fund. Bonds are sold on behalf of the fund then retired from revenues accruing predominantly from the sale of renewable resources (i.e. timber) from State school lands set aside by the Enabling Act of 1889. If these sources are insufficient to meet needs, the Legislature can appropriate funds or the State Board of Education can establish a moratorium on certain projects.

School districts may qualify for School Construction Funding Assistance for specific capital projects. To qualify, a project must first meet a State established criteria of need. This is determined by a formula that specifies the amount of square footage the State will help finance to provide permanent structures for the unhoused enrollment projected for the district. If a project qualifies, it can become part of a State prioritization system. This system prioritizes allocation of available funding resources to school districts statewide based on seven prioritization categories. Funds are then disbursed to the districts based on a formula which calculates district assessed valuation per pupil relative to the whole State assessed valuation per pupil to establish the percent of the total project cost to be paid by the State. The State contribution can range from less than half to more than 70% of the project's cost.

State School Construction Funding Assistance can only be applied to major school construction projects. Site acquisition and minor improvements are not eligible to receive School Construction Funding Assistance dollars. School Construction Funding

Assistance funds are not received by a school district until after a school has been constructed. In such cases, the District must “front fund” a project. That is, the District must finance the complete project with local funds (the future State’s share coming from funds allocated to future District projects). When the State share is finally disbursed (without accounting for escalation) the future District project is partially reimbursed.

Because of the method of computing State School Construction Funding Assistance, the official percentage of funds calculated by the State does not typically equal the actual percentage of total facility cost. The State Funding Assistance Percentage for the Enumclaw School District is approximately 53.78%. Notably, this only applies to costs that the State considers eligible for State Funding. Land costs and other development costs are not considered eligible for State School Construction Funding Assistance. Furthermore, the State only allows 90 square feet per elementary student while the District’s service standard requires more square feet per student. This additional space must be funded with local dollars. For a typical project that has maximum State funding, less than 50% of the total project costs will be covered by School Construction Funding Assistance dollars.

Mitigation Payments and School Impact Fees

For development in those jurisdictions that have not adopted a school impact fee ordinance, the District relies on mitigation required under the State Environmental Policy Act and related statutes.

In those jurisdictions where a school impact fee ordinance is in place, the District requests that an impact fee be collected by the permitting agency for the construction of any new residential dwelling unit.

Fees assessed are based on the new enrollment growth in the District. By law, new development cannot be assessed impact fees to correct existing deficiencies.

Impact fees have been calculated utilizing the formula in the King County Ordinance 11621. The resulting figures are based on the District’s cost per dwelling unit to purchase land for school sites, make site improvements, construct schools and purchase, install or relocate temporary facilities (Portables). Credits have also been applied in the formula to account for State School Construction Funding Assistance expected to be reimbursed to the District and projected future property taxes to be paid by the owner of a dwelling unit.

The District’s cost per dwelling unit is derived by multiplying the cost per student by the applicable student generation rate per dwelling unit. King County Ordinance 11621 defines “Student Factor” as “the number derived by a school district to describe how many students of each grade span are expected to be generated by a dwelling unit. Student factors shall be based on district records of average actual student generation rates for new developments constructed over a period of not more than five (5) years prior to the date of the fee calculation; provided that, if such information is not available in the district, the data from adjacent districts, districts with similar demographics, or county wide averages may be used.”

Enumclaw School District's student generation factors are based on the 2014 average of student factors from surrounding districts in King County. See Table 7. The surrounding districts include Federal Way, Issaquah, Kent, Lake Washington, and Northshore.

Table 7 - Summary of Student Generation Rate (SGR)

Single Family Dwelling Units:

	Federal Way	Issaquah	Kent	Lake Washington	Northshore	Average
Elementary	0.220	0.354	0.398	0.424	0.331	0.345
